

HOTEL ON-BOARDING CHECKLIST

Watch [Video](#)

CrewzIt is Hotel Connections' mobile App for crew. The app provides crewmembers with visibility to **Schedules, Hotel Information** (contracted amenities, discounts, etc.) & Real Time **Transportation Tracking!**

Crewmembers are able to **rate** and send in **feedback** in real time about their hotel stays and transportation experiences.

Hotel Connections uses the ratings and feedback to report back to the airlines clients and to store data for future market research when seeking new crew contracts in your market. Ratings are also pushed to **VINDO**, our industry-leading, proprietary contract, sourcing, and procurement platform.

Why CrewzIt is good for you, the Hotel?

- Hotels can send in images they would like to have displayed within the app
- Hotels can participate in "GPS live transportation hotel shuttle tracking" program

Check List:

1. **Hotel Images:** Hotel Connections will use generic images from your web site, unless you send us images you would like us to use. Please send us images you feel would interest crewmembers: crew lounge, rooms with microwave, laundry room, any special features your property might have.
2. **Hotel Shuttle Image:** This will help the crewmember identify your shuttle while cutting down on front desk phone calls during compressed times of the day.
3. Aside from your contracted benefits, our CrewzIt tool will allow you to display any **specials or offers** you'd like to offer the crewmembers. For Example: Holiday Spa Specials – 20% off facials, Free chicken wings on Tuesdays, ect.

Please send all images, specials, questions about CrewzIt to:
